SKILLS

- **Programming:** Python, Java, C++
- **Web Development:** React, Next.js, Nest.js, Node.js, Ruby on Rails, HTML, CSS
- **Mobile Development:** Flutter
- **Data Science & AI:** Machine Learning, Deep Learning (ANN, CNN), Data Analysis, Computer Vision
- **Databases:** SQL, MongoDB
- **Tools:** Unity (2D/AR/VR), Firebase, Git/GitHub
- **Soft Skills:** Teamwork, Leadership, Project Management

LANGUAGES

Arabic → Native Language.

English → Highly Proficient.

French → Highly Proficient.

Deutsch → Basic Knowledge.

PROFILE

Motivated Computer Science student at GIU, majoring in **Data Science** with a cumulative GPA of **1.1 (≈3.9/4.0)**. Recipient of **two DAAD scholarships** for academic excellence, ranking among the **Top 20 students** in the first and second year. Currently pursuing a **Bachelor thesis at HTW Berlin** on *Mixed Reality for Intercultural Exchange*, developing interactive VR-based prototypes that enhance intercultural collaboration.

Co-founder of **Sitehub Builders** ([LinkedIn](#)), a software house delivering tailored digital solutions with completed projects across schools and libraries. Experienced in **full-stack web development, mobile applications**, and emerging technologies such as **AI, Data Science, and VR/AR**.

EDUCATION

-GERMAN INTERNATIONAL UNIVERSITY (GIU), CAIRO, EGYPT:

- B.Sc. Computer Science – Major: Data Science, Minor: Software Engineering
- GPA: 1.1 (≈3.9/4.0)
- Top 20 student in first and second year (Ranked 19th in 1st semester)
- Recipient of two DAAD scholarships for academic excellence
- Expected Graduation: 2026

-HOCHSCHULE FÜR TECHNIK UND WIRTSCHAFT (HTW), BERLIN, GERMANY:

- Bachelor Project (Sept 2025 – Feb 2026): *Mixed Reality for Intercultural Exchange* – developing interactive VR-based prototypes for intercultural collaboration

PROJECTS

1-Porsche Car Buying Website: (Full-Stack Web, University Project)

- Simulated Porsche's car showcase and purchase process.
- Built with **Node.js, Express, MongoDB, HTML, CSS, JavaScript**.

2-E-Learning Platform: *(Full-Stack Web, University Project)*

- Designed a platform similar to Udemy, supporting courses, user accounts, and progress tracking.
- Implemented with **React, Node.js, SQL**.

3-Leaders International College Website: *(Full-Stack Web, Sitehub Builders)*

- First official project of **Sitehub Builders**, deployed for Leaders International College.
- Live link: leadersintcollege.com.
- Built with **Next.js, React, Node.js**.

4-Machine Learning Projects:*(AI & Data Science, University Coursework)*

- Built multiple **classification and regression models**: e.g., predicting market values, forecasting event subscriptions.
- Applied **ANN and CNN** for deep learning tasks such as **image captioning**.
- Tools: **Python, scikit-learn, TensorFlow, Pandas**.

5-Computer Vision Projects: *(AI & CV Applications)*

- Developed models for **road sign detection, facial expression recognition** (e.g., sad/happy).
- Used frameworks including **YOLO, OpenCV, TensorFlow** for real-time object detection and image recognition.

6-Bachelor Project at HTW Berlin: *(VR Research, Ongoing)*

- *Mixed Reality for Intercultural Exchange* – developing interactive **VR-based prototypes** to connect GIU and HTW campuses.
- Tools: **Unity, Mixed Reality Toolkit, C#**.

7-Government Services Mobile App: *(Flutter & Firebase)*

- Full-featured application with **user authentication, real-time data storage, and role-based access**.
- Built with **Flutter (Dart)** and **Firebase** backend.

INTERSHIPS

1-Orient El Futtaim – IT Department: *(Jul 2024 – Aug 2024)*

-Worked on website development, integrating **Paymob payment solutions**.

-Tech: **React, Oracle SQL**.

2-Avidbeam – Web Development Department: *(Aug 2024 – Sep 2024)*

-**Full-stack development** for AI-powered video analytics solutions.

-Tech: **Ruby on Rails, React**.

3-AVIDBEAM – R&D DEPARTMENT: *(Data Science & Computer Vision) (Aug 2025 – Sep 2025)*

-Implemented **ResNet18, U-Net, and YOLOv8 models in PyTorch**. Focused on **classification, segmentation, detection, and Grad-CAM visualization**.
