

To the officials of the German Embassy in Cairo,

I am writing to apply for a student visa to complete my Bachelor Thesis Project at HTW Berlin - University of Applied Sciences. This thesis is the final requirement for my Bachelor of Science in Data Science at the German International University (GIU) in Egypt.

I have already received my official acceptance letter from HTW Berlin confirming my research stay. My thesis focuses on developing an interactive mixed reality prototype that connects the real-world HTW and GIU campuses for intercultural exchange. Conducting this project at HTW Berlin will allow me to benefit from the university's advanced research environment and expert supervision.

I am fully self-funded for this stay and have arranged sufficient financial means to cover all living costs, accommodation, and travel expenses. I have also secured valid health insurance that meets German visa requirements.

After completing my thesis, I will return to Egypt to finalize my graduation requirements at GIU and continue my career in data science.

I respectfully ask you to kindly consider my visa application. I am fully committed to respecting the visa terms and returning to my home country upon completion of my project.

Thank you for your time and consideration.

Yours sincerely,
Omar Hossam
